

Craig hails from Kemptville with his wife Leigh and son Myles, he co-owns and operate Templeview Farms Inc. with his father, John. The dairy farm includes a milking herd of 65 cows (robot) with the majority of our land base being used to grow cereals/forages for the dairy. Additional land is cash cropped. Currently fill 1.45kg of butterfat/cow with a herd final score averaging 86pts.

Craig is a former 4-H Judging Club leader and director on the local Holstein club. And is currently more involved with the industry from a milk producer standpoint and as a judge at fairs/shows.

Craig began judging as a 4-H member, judging highlights included representing Ontario at WDE and being an inter-collegiate champion twice. More recently I've enjoyed the opportunity of judging regional and county shows and was part of the Jersey All-Ontario nomination panel. He has judged 4-H shows, junior shows, breeder's cups and the Frontenac County Show.
